Professional Experience

Aashro Tech | Web Developer

Sept 2024 – Sept 2025

- Managed and updated 100+ website pages in TYPO3 CMS while maintaining data accuracy and structured formatting.
- Validated published content and corrected data errors to maintain clean, reliable information for end users.
- Worked with HTML, CSS, JavaScript, and PHP to support structured website updates and improve page-level data presentation.
- Performed quality checks before deployment, helping reduce content mismatches and maintain a professional output standard.
- Supported organized record handling and change tracking, building a strong foundation for MIS, reporting, and database- oriented work.

Projects

Portfolio Website Deployment

Portfolio Website : <https://harryrathod-da.github.io/harry-portfolio/>

GitHub : <https://github.com/harryrathod-da?tab=repositories>

- Built a personal portfolio website using Google AI Studio development support and deployed it on GitHub.

PROJECTS

Netflix User Analytics Dashboard | Excel, Pivot Tables, GitHub

- Analyzed a Kaggle Netflix dataset to identify user engagement, subscription trends, and watch patterns.
- Built interactive dashboards and pivot table reports for structured data analysis and reporting.
- Applied data cleaning, filtering, and Excel formulas to improve reporting accuracy.
- Hosted the complete project on GitHub.

Retail Sales Analysis Dashboard | Excel, Data Analysis, GitHub

- Worked on a Kaggle retail sales dataset to analyze revenue trends, customer behavior, and product performance.
- Created Excel dashboards and pivot table reports for sales tracking and business insights.
- Performed data cleaning and reporting using Excel formulas and analytical functions.
- Published the project on GitHub.
